

Gene E. Carte served as the Chair of the Department of Criminal Justice at the University of Cincinnati during the mid-1970s. He received his D.Crim from the University of California at Berkeley and did his undergraduate studies at Florida State University. He was killed, on November 30, 1977 at the age of 39, during a robbery as he was retrieving research materials from a former student. He was known for his exuberance, his imagination, and his graciousness, and he was taken from us too soon.
